### PLAYGROUNDS. Those in New Haven Will Need More Money This Year.

the Civic association had completed its list of estimates for the coming year and would present it to the board of finance at their meeting this after-noon. It was stated on good authority that the committee will lask for an ap-propriation in the neighborhood of

Last year the committee asked for poard of linance. That was an increase pf \$500 over the appropriation given in 1967, at which time they took on the work of conducting the vacation schools and playgrounds.

This year however, the committee feels that it will have to ask for a

larger appropriation owing to the in creased demand for playgrounds and playground apparatus. There are three ctions of the city that are already amoring loudly for playgrounds, ley are Fair Haven, the Beaver pond rk district, and the Third ward. All estimates for the coming year have to be presented before 10. The matter will probably tabled by the board of finance this afternoon. The exact amount the play-grounds committee intend to ask could of be learned, but it was stated that was about \$4,000.—New Haven Pal-

The Korean grass used in the manu facture of grass cloth is grown very thickly and is usually cut the second or third year after planting the roots. The grass reaches a height or four to five feet and with a proper start and under favorable conditions yields. It is roughly estimated, about 3,000 pound to an area corresponding to an acre.

"Glad Rags" for the Filipinos.

It used to be said that civilization began when the savage donned the captured plug hat. But there is a different version of this story now, as may be seen by the following report from Washington:

"The Filipino is being civilized. The history of civilization, a profound Gorman student discovered, begins where the man tucks his shirt under his waistband. Behold the Filipino with his shirt on the inside. This is the encouraging news to the department of commerce and labor from one of its agents in Manila. Time was, he says, when the natives were content to wear their shirts outside of their trousers and went about in slipshod slippers and no socks. Today they pattern after Americans and Europeans and appear in high, stiff collars and wear lurid-hued neckties, brilliant-colored socks and tan shoes."

So it seems no exaggeration to say that the up-to-date Filipino is a sweet that the up-to-date Filipino is a sweet.
